

# The Simplest Workflow

BACSTM Microbubbles Comparison for Dead Cell Removal

Magnetics	Microfluidics	BACSTM
<p><b>Prep Required?</b> Yes</p>	<p><b>Prep Required?</b> Yes</p>	<p><b>Prep Required?</b> No</p>
<p><b># of Samples</b> 4 per run</p> <p><b>Minimum Cell #</b> 1M or more</p>	<p><b># of Samples</b> 1 per run</p> <p><b>Minimum Cell #</b> 1 to 2M</p>	<p><b># of Samples</b> Up to 24+ per run</p> <p><b>Minimum Cell #</b> 500k or lower</p>
<p><b>Columns   Cartridges?</b> Yes</p> <p><b>Additional Equipment?</b> Yes</p> <p><b>Instruments?</b> No</p>	<p><b>Columns   Cartridges?</b> Yes</p> <p><b>Additional Equipment?</b> No</p> <p><b>Instruments?</b> Yes</p>	<p><b>Columns   Cartridges?</b> No</p> <p><b>Additional Equipment?</b> No</p> <p><b>Instruments?</b> No</p>

## MORE SAMPLES, LESS TIME

## UNCOVER MORE MEANINGFUL BIOLOGY

Tired of damaged cells? Our gentle workflow isolates cells in their natural state.

## ENJOY HIGHER RECOVERY

Keep more cells of interest with our industry-leading microbubble protocol to perform more studies for greater depth of knowledge.

## FREE YOURSELF FROM LIMITATION

No longer worry about being limited by magnets, losing cells to clogged columns, or purchasing costly equipment.
